Application instructions

Stir the product thoroughly using a low-speed drill to avoid incorporating too much air. Line Maker can be used pure or diluted with a maximum of 10% water. The use of dedicated line marking machines ensures uniform application, as well as optimal coverage and line definition. Apply at least two coats of Line Maker at intervals of approximately 6 – 8 hours.

Notes

Protect freshly painted surfaces from rain. Do not apply on wet or frozen surfaces, or when rain is expected shortly.

Safety Regulations

Product for professional use. Strictly follow the labelling instructions and consult the safety data sheet before use.

Disposal

Dispose of unused product and empty containers in accordance with current local legislation.
