

POWERFUL, FAST, VERSATILE.

EXTREME EASY & ANGLE

The sanding machines that will revolutionize your way of working

TOVER[®]
Your formula

VARIABLE SPEED

Extreme is the powerful, versatile, and fast sander that will revolutionize your way of working. Equipped with a planetary disc and four counter-rotating pads, it is extremely balanced and, thanks to an adjustable handle, ensures perfect fluidity of movement in all directions.

In addition, speed control on the handle allows you to use the right speed for each phase of the work. Thanks to the **Block System** function, **Extreme** can work with raised wheels as a buffing machine or with wheels on the ground for the most extreme sanding phases.

Its effective suction system minimizes residue; the inverter enables gradual energy absorption. Easily disassembled, it can be transported conveniently and quickly.

ADVANTAGES

THE RIGHT SPEED, ALWAYS

Thanks to speed control on the handle

PERFECT FLATNESS

Counter-rotating pads make it extremely balanced

EASY TO HANDLE

Excellent fluidity of work in all directions

EASY TO TRANSPORT

Extreme can be easily disassembled

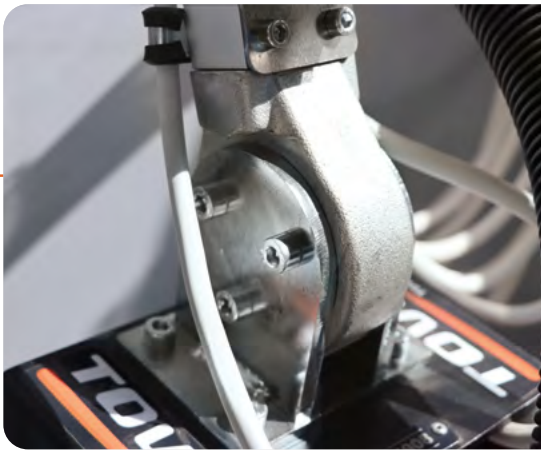

VARIABLE SPEED SANDING MACHINE WITH INVERTER, COMPLETE WITH:

- 4-satellite Ø150 mm planetary disc, convertible to 3
- Velcro driver disc for Ø430 mm pad
- 4 hard velcro pads Ø150 mm
- 4 soft velcro pads Ø150 mm
- LED light kit
- Additional 220V socket

TECHNICAL FEATURES

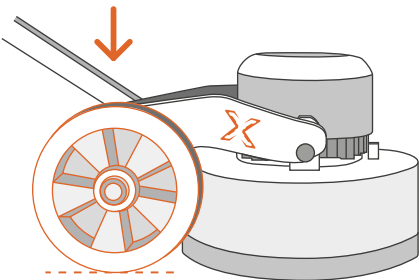

Motor	3,5 - 4,0 HP
Voltage	220V
Frequency	50Hz
Motor Speed	155 - 250 rpm
Planetary Speed	800 - 1300 rpm
Working Width	430 mm
Dimensions	43x127x70 cm
Number of Tool Holders	4
Tool Holder Diameter	140 mm
Carriage Weight	22 Kg
Grinding Head Weight	55 Kg
Planetary Weight	12 Kg

Grinding Head + Carriage

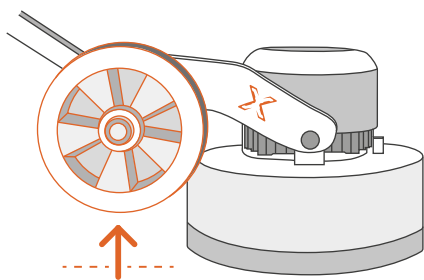

GRINDING MODE

wheel on the ground
and oscillating head

SANDING MODE

wheel lifted and fixed head

POWERFUL

2500 Watt Motor

ADJUSTABLE

Speed variation
at your fingertips

FAST

Great results
in a short time

VERSATILE

Perfect as a sander
and buffing machine

PERFECT FLUIDITY

EasyXand is the compact and manageable sander with a planetary system of four counter-rotating heads. The 3.5 HP motor combined with a balance designed to operate in all directions makes it particularly suitable as a buffing machine, with extraordinary fluidity of movement and total control in every stage of work.

The height-adjustable wheels allow effective delicate sanding and surface preparation on tougher areas. Additionally, the 90° folding handle and compact design make **EasyXand** easy to transport and use even in the tightest spaces. The quickly detachable planetary system makes it possible to adapt the machine to a wide range of applications by using different drivers, brushes, or buffing machine accessories.

ADVANTAGES

EASY TO HANDLE

Excellent fluidity of work in all directions

PERFECT BALANCE

Total control at every stage of work

COMPACT DESIGN

For all space requirements

EASY TO TRANSPORT

EasyXand can be easily disassembled

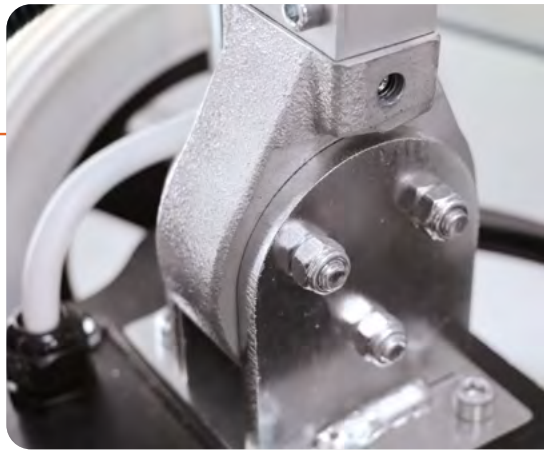

COMPLETE SANDING MACHINE INCLUDING:

- 4-satellite Ø150 mm planetary disc
- Velcro driver disc for Ø430 mm pad
- 4 hard velcro pads Ø150 mm
- 4 soft velcro pads Ø150 mm
- 3 additional weights
- LED light kit
- Additional 220V socket

TECHNICAL FEATURES

Motor	3,5 HP
Voltage	220V
Frequency	50Hz
Motor Speed	140 rpm
Planetary Speed	800 rpm
Working Width	430 mm
Number of Tool Holders	4
Tool Holder Diameter	140 mm
Machine Weight without Planetary	51,5 Kg
Planetary Weight	10 Kg
Additional Weights	3 x 6,5 Kg

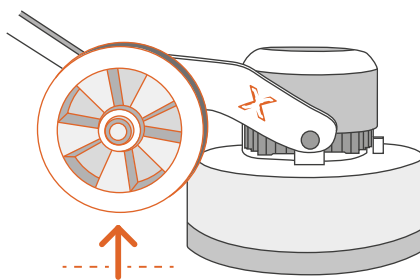

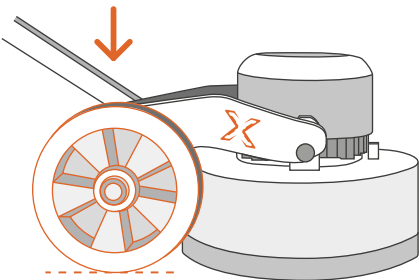

GRINDING MODE

wheel on the ground
and oscillating head

SANDING MODE

wheel lifted and fixed head

POWERFUL

2500 Watt Motor

LIGHTWEIGHT

Only 61.5 kg

Perfect as a sander
and buffing machine

ACCESSORIES

PLANETARY

Counter-rotating hardened steel planetary with 4 tool holders. Easy to install without tools.

DRIVER DISC

Maximum efficiency in sanding, oiling and floor washing. Uses the same flange as most commercial buffing machines. Ø 430 mm.

VELCRO PADS

Easy to insert, available in hard or soft. Ø 150 mm.

LIQUID TANK

18L shockproof ABS liquid tank with ergonomic control rod.

DIAMOND PADS FOR GRINDING

Perfect for sanding wooden floors. They have about 100 times the lifespan of abrasive paper, with excellent material removal and no clogging. Ø 140 mm.

DIAMOND PADS FOR CONCRETE

Diamond discs for hard concrete. Ensure high removal rate. Available in grit 20, 40, 70 and 140. Ø140 mm.

STEEL BRUSHES

Steel brush for deep brushing of parquet. Ø 140 mm.

TYNEX BRUSHES

Tynex brush for parquet brushing. Available in grit 36, 70 and 120. Ø 140 mm.

ADDITIONAL WEIGHT

Easy to install without tools.

VACUUM CLEANER

POWER TOOL PRO

Vacuum with new generation high-efficiency motor. Triple stage filtration ensures top performance and motor protection. **SHOCKING VALVE** system enables semi-automatic filter cleaning and long lifespan.

Includes a 2000W max power tool socket.

Available capacities: 50L and 36L

TECHNICAL SPECIFICATIONS	36 L	50 L
Max Power	1250 W	1450 W
Tank Capacity	36 L	50 L
Useful Capacity	25 L	35 L
Filter Bag Cap.	19 L	19 L
Noise Level	60 db	62 db
Cable Length	10 m	10 m
Weight	11,5 kg	15 kg
